Education

University of Santo Tomas

Bachelor of Science in Computer Science, specializing in Data Science

Manila, Philippines

August 2022 – June 2026

- Cum Laude
- General Weighted Average: 1.46
- Relevant Coursework: Data Warehousing, Machine Learning, Advanced Statistics and Probability, Object-Oriented Programming, Software Engineering, Operations Research, Data Mining

Experience

ServiceNow Developer Intern

Cognizant - ServiceNow Business Group PH

January 2026 – May 2026

- Completed an intensive **400+ hour** upskilling track, earning badges in Flow Designer, Scripting Fundamentals, CMDB Health Simulators, and Access Control (ACL) Basics.
- Successfully passed the **ServiceNow Certified System Administrator (CSA)** examination.
- Administered **ITSM modules** to streamline service delivery operations, resolving configuration bottlenecks and improving platform usability.

[Lead Front-End/Full-Stack Developer](#)

Fresco by Meobel

Marikina, Philippines

October 2024 – May 2025

- Led the development and implementation of a comprehensive **Payroll and Attendance System** for a restaurant in Marikina City with over **30** employees, serving as the Lead Front End Developer.
- Developed and implemented responsive user interfaces using **ReactJS** and **Tailwind CSS**.
- Primarily responsible for integrating frontend with backend functionalities, utilizing **Docker** for containerization, **Postman** for API testing, and **PostgreSQL** for database management, deployed on **Digital Ocean**.

Projects

[Shoplifting Recognition via Long-range Temporal Modeling \(HRNet & ED-TCN\)](#)

Lead Researcher and Developer for Undergraduate Thesis

February 2025 –

December 2025

- Architected an end-to-end framework using **HRNet** for pose estimation and **Encoder-Decoder Temporal Convolutional Networks (ED-TCN)** to capture long-range behavioral dependencies.
- Achieved an F1-Score of **53.12%** and **38.93%** Precision, nearly tripling the performance of the state-of-the-art STG-NF baseline.
- Integrated **YOLOv8** and **ByteTrack** for human localization and tracking, and implemented a **Motion Gate** filter to reduce false positives from static entities.

[The Curiosity Cup 2025 – Winner, Data Preparation Category | SAS Global Student Competition](#)

December 2024 –

April 2025

- Contributed to the "**Predictive Model Trends: Predicting Early Detection of Alzheimer's Disease**" project, which earned top honors in the Data Preparation category.
- Developed and optimized **Gradient Boosting Classification** models using **SAS Viya Workbench for Learner** on diverse Kaggle datasets, achieving up to **95.77%** prediction accuracy
- Executed comprehensive data cleaning and validation (e.g., handling missing values, converting categorical data, identifying significant features like CDR, MMSE, and CSF Amyloid) to enhance model performance

Lead Front-End/Full-Stack Web Developer for PersonaForge

Bank of the Philippine Islands, Inc.

Manila, Philippines
June 2025 – September 2025

- Collaborated on the development of **PersonaForge**, an **agentic AI system** designed to create a "**Synthetic Digital Twin Persona**" for each customer to deliver intelligent and hyper-personalized banking interactions.
- Contributed to the full-stack architecture, utilizing **React.js** and **TypeScript** for the frontend and **Python Django** with **DRF** for the backend.
- Implemented and integrated the **OpenAI** and **Groq AI APIs** to power the chatbot functionalities, showcasing direct experience with large language model services.

Real-Estate Market Analysis

September 2025

- Developed an automated web scraping solution using **Python** and the **Apify** platform to extract and analyze real estate data from **Zillow**.
- Integrated the data gathering workflow with **GitHub Actions** for automated execution and secure credential management via GitHub Secrets.
- Extracted key property data including price, location, number of bedrooms, and living area, providing a clean dataset for future analysis

Skills

Programming & Technical

- ServiceNow: CSA, CRM, CMDB Health, Flow Designer, Business Rules, Client Scripts, ACLs, ITSM
- Languages: JavaScript, Python, Java, PHP, HTML, CSS, SQL, TypeScript
- Web Technologies: ReactJS, Tailwind CSS, Node.js, RESTful APIs, DRF, Web Scraping
- Databases & Tools: PostgreSQL, MySQL, Docker, Postman, Git, GitHub Actions, Apify
- AI/ML: OpenAI, Groq AI, SAS Viya Workbench, OpenCV, MediaPipe
- Data Analysis & Visualization: Database Management, Microsoft Excel, Power BI, Tableau

Soft Skills

- Collaboration: Teamwork, Interpersonal Communication, Cross-functional Collaboration
- Problem-Solving: Critical Thinking, Analytical Reasoning, Debugging, Solution-Oriented
- Adaptability: Fast Learner, Resourcefulness, Independent Research
- Communication: Technical Documentation, Presentation Skills
